

ENVIRONMENTAL POLICY

ISSUE 3

MAY 2023

We recognise the importance of environmental protection and will comply with all regulations, legislations and approved codes of practice relating to the process and activities of the company.

We will co-operate with and maintain outstanding relations with all regulatory authorities.

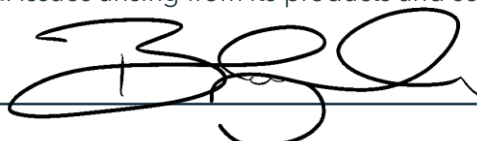

NZG will carry out all measure reasonably practicable to seek, meet and where possible exceed and develop all necessary requirements for continual improvement in environmental performance and the prevention of pollution.

Our aims are to:

- Assess and monitor the environmental effects of the company's activities in electro-plating, effluent treatment and waste disposal.
- Minimise the amount of waste produced
- Maximise efficient utilisation of raw materials & water by recycling methods
- Review energy consumption in line with Min Met agreement
- Control and minimise emissions to water, land and air to prevent pollution.
- Review the use of recyclable and reusable materials

The company will foster environmental awareness and understanding in all employees, suppliers, customers, sub-contractors and the public. Where practicable, the company will provide information and assistance to customers on environmental issues arising from its products and services.
